TECHNICAL SPECIFICATIONS

Power taps	7.5 / 15 / 25 / 30 W
Frequency response	300 Hz–8 kHz
Impedance	8 ohm
Transformer voltage	70–100 V
Ingress protection	IP66
Dimensions (source notation)	Dia. 290 x 213 x 294 mm

The source labels 128 dB as sensitivity without a measurement condition. This value requires verification and is not used as a performance claim. Confirm 8 ohm versus line-transformer terminals before wiring.
